Bassam Muslih Al-Sultan

Cybersecurity Student | Digital Forensics · Incident Response

balsltan554@gmail.com | +966 50 966 5997 | https://linkedin.com/in/bassam-cys

PROFESSIONAL SUMMARY

Cybersecurity student in the Digital Forensics track at King Khalid University (graduating June 2027), specializing in Digital Forensics and Incident Response. Hands-on with disk and memory forensics (Autopsy, FTK Imager, Volatility), SIEM operations (Splunk, Wazuh) and network analysis (Wireshark). Certified in eCDFP, eCIR and CompTIA Security+. Seeking a 20-week co-op internship from January 2027 in DFIR, SOC or incident response.

WORK EXPERIENCE

Cybersecurity Trainee | KAUST Academy — Jan 2026 – Jul 2026

- Completed a 160-hour hands-on training program with SITE and the National Cybersecurity Authority (NCA), delivered at KAUST and King Khalid University.
- Applied digital forensics investigation, malware analysis, IoT and network security, web security testing and penetration testing in lab exercises.

PROJECTS

Smart-Home IoT Forensics Case (team of 5) — May 2026

- Built a simulated smart-home IoT network in Cooja (Contiki-NG) with a five-member team and investigated a data-injection attack against it.
- Analyzed cloud logs and PCAP evidence, verified evidence integrity with SHA-256 hashes, traced the attacker's device with Wireshark, and authored the final forensic report.

CYBERMAN, Deepfake Forensic Verifier (solo project) — May 2026 https://cyberman-eta.vercel.app

- Independently designed and built a web-based deepfake forensic verifier (HTML, CSS, JavaScript) with two Vercel serverless functions, keeping the detection API key server-side.
- Produces a forensic report with an overall confidence score, a heatmap and five forensic indicators through a nine-stage analysis pipeline, and validated its outputs by benchmarking them against other deepfake detection models and tools.

EDUCATION

Bachelor's degree – **Cybersecurity, Digital Forensics track** | King Khalid University — 2023 – Present

Expected graduation: Jun 2027

SKILLS

Security: Digital Forensics, Incident Response, Network Security, Malware Analysis, Penetration Testing, Cryptography

Tools: Autopsy, FTK Imager, Volatility, Wireshark, Splunk, Wazuh, Linux

Programming: Python, Java, C

LANGUAGES

Arabic (Native) **English** (Professional Working)

CERTIFICATIONS

eCDFP, Certified Digital Forensics Professional – INE Security Aug 2026

eCIR, Certified Incident Responder – INE Security Sep 2026

CompTIA Security+ (SY0-701) – CompTIA Feb 2026

Ethical Hacker – Cisco Networking Academy Feb 2026

Cybersecurity Incident Response Virtual Experience – Misk Foundation & stc Jun 2025

LEADERSHIP & VOLUNTEERING

Organizing Committee Head | Cybersecurity Club, King Khalid University — 2026 – Present

Led the organizing committee of the Cybersecurity Club at King Khalid University, planning and running the club's events, camps, workshops and courses, including an awareness month. Currently serving in this role.

Organizing Team Member | GDG on Campus, King Khalid University — 2025 – 2026

Organized events, camps and workshops as part of the GDG on Campus organizing team at King Khalid University.

Participant | Programming Club and Technology Club, King Khalid University

Completed 6 hands-on bootcamps at the Programming Club in C, web development, React Native, CTF, network design and competitive programming.

Volunteer | National Center for Non-Profit Sector — Oct 2024 – Oct 2026

- 929 certified volunteer hours in total.
- Digital Awareness Ambassadors initiative: 50 hours (Oct 2025).
- Ajaweed 3 and 4, Aseer Development Authority: helped organize community events, workshops and initiatives.

AWARDS & HONORS

- **Certificate of Appreciation** – General Administration of Cybersecurity, King Khalid University
